

SOCHARY VANDA

FRONT-END DEVELOPER

PROFILE

I am currently a sophomore year student majoring in computer science. I am passionate about designing hence why my main concentration is UX/UI and front-end. Regardless of my passion, one of my biggest aspiration as a computer scientist is to develop or design something that will elevate the way people live or improve people's lives in a better way.

TECHNICAL SKILLS

- **Front-end development** : HTML , CSS , Javascript, React JS , Figma (UX/UI)
- **Python Programming** : Basic programming and solving problems
- **Project Management** : Agile methodology, Scrum, Kanban board usage
- **Version Control** : Git, GitHub (branching, merging, pull requests, code collaboration)
- **UI/UX Design** : Prototyping, wireframe, user experience
